Subject: Re: Planning Board meeting 1/26

Jesse,

It looks like there is something on the planning board meeting regarding 137 Harvard Road and the adjacent lot for tonight's meeting. We understand you are busy, but as we requested before if you could email us when something is on the agenda it would be greatly appreciated.

It's been about a year now since they had first started cutting the trees down on the property adjacent to mine. As I mentioned before the removal of the trees from the lot between 137 Harvard Road and my property has raised several concerns (previously addressed in a letter dated May 29, 2020, and subsequent emails).

1. Due to the increased wind it has flattened a lot the new growth trees on that side of my property.
2. I believe due to soil erosion I'm also losing trees on that side of my property now as well.

Photos of the lost trees can be found at the link below

<https://photos.app.goo.gl/E2R6pB7woa7nJu678>

3. I believe there is an increase in water flow and watershed towards my property due to the removal of the trees. I worry about the effect the additional water will have on my well.
4. When the survey work was done last year it appears the property line moved and the original property pin that had been in the ground when we purchased our house was removed. We are asking that be replaced and that the ground surrounding the area be left undisturbed in case there is in-ground monumentation in the area.
